THIS POCHIERY	CONTAINS INFORMATION AFFECTING THE RATIONAL PAPER	105	· · · · · · · · · · · · · · · · · · ·
U. B. C., \$1 AND OP ITS CONTENT	Contains in Committee appared on the Espionage Act states within the Heading of the Espionage Act 22. As abruded. The transmission on the Revient 2 M any mauner to as Unauthorized Person is Jr Bybeoduction of this form is provisited.	THIS IS UNI	EVALUATED INFORMATION 50X1-HU
			·
1.	A radar station is being	built on the Hel peninsy	lar near the town of Hel.
	It consists of several sm	mil buildin's, newly ero	scted. On which are the
	antennse and in which oth	er equipment is being in	estalled. This installation
	antennae and in which oth	mer equipment is being in t. and word has been spre	nstalled. This installation ead that it is a meteorologi-
	antennae and in which oth is being kept very secret cal station. The radar i	mer equipment is being in t, and word has been spre is being installed by Pro	nstalled. This installation ead that it is a meteorologi- ofessor Wysocki of the Gdansk
	antennae and in which oth is being kept very secret cal station. The radar i	ner equipment is being in t, and word has been spre is being installed by Pro to is being assisted by si	nstalled. This installation ead that it is a meteorologi- ofessor Wysocki of the Gdansk ix Pol'sh students who have ents in Gdansk. Wysocki is
	antennae and in which oth is being kept very secret cal station. The radar i Technical University, who completed their studies of and a specialist in small	ner equipment is being in t, and word has been spre is being installed by Pro o is being assisted by si of small electrical curre l electrical currents.	estalled. This installation ead that it is a meteorologi- ofessor Wysocki of the Gdansk ix Polish students who have ents in Gdansk. Wysocki is an engineer
	antennae and in which oth is being kept very secret cal station. The radar i Technical University, who completed their studies of	ner equipment is being in t, and word has been spre is being installed by Pro o is being assisted by si of small electrical curre l electrical currents.	nstalled. This installation ead that it is a meteorologi- ofessor Wysocki of the Gdansk ix Pol'sh students who have ents in Gdansk. Wysocki is
	antennae and in which oth is being kept very secret cal station. The radar i Technical University, who completed their studies of and a specialist in small	ner equipment is being in t, and word has been spre is being installed by Pro o is being assisted by si of small electrical curre l electrical currents.	nstalled. This installation ead that it is a meteorologi- ofessor Wysocki of the Gdansk ix Polish students who have ents in Gdansk. Wysocki is an engineer along time ir 50x1-H
	antennae and in which oth is being kept very secret cal station. The radar i Technical University, who completed their studies of and a specialist in small	ner equipment is being in t, and word has been spre is being installed by Pro o is being assisted by si of small electrical curre l electrical currents.	nstalled. This installation and that it is a meteorologi- ofessor Mysocki of the Gdansk ix Polish students who have ants in Gdansk. Mysocki is an engineer a long time ir 50X1-H
3.	antennae and in which oth is being kept very secret cal station. The radar is Technical University, who completed their studies of and a specialist in small USSR and is said to have	ner equipment is being in t, and word has been spre is being installed by Pro o is being assisted by si of small electrical currents. I studied radar there.	the same staff of ication of the same staff of ication of the Hel peninsula
3.	antennae and in which oth is being kept very secret cal station. The radar is Technical University, who completed their studies of and a specialist in small USSR and is said to have Soviet engineers which is is also in charge of similar to the state of	ner equipment is being in t, and word has been spre is being installed by Pro o is being assisted by si of small electrical currents. I studied radar there.	the same staff of ication of the Hel peninsula adar stations which are being and station of the Gdansk in Gdansk. Wysocki is an engineer to spent a long time ir 50×1-H
3.	antennae and in which oth is being kept very secret cal station. The radar is Technical University, who completed their studies of and a specialist in small USSR and is said to have	ner equipment is being in t, and word has been spre is being installed by Pro o is being assisted by si of small electrical currents. I studied radar there.	the same staff of ication of the Hel peninsula adar stations which are being and station of the Gdansk in Gdansk. Wysocki is an engineer to spent a long time ir 50×1-H
3.	antennae and in which oth is being kept very secret cal station. The radar is Technical University, who completed their studies of and a specialist in small USSR and is said to have Soviet engineers which is is also in charge of similar to the state of	ner equipment is being in t, and word has been spre is being installed by Pro o is being assisted by si of small electrical currents. I studied radar there.	the same staff of ication of the Hel peninsula adar stations which are being and station of the Gdansk in Gdansk. Wysocki is an engineer to spent a long time ir 50×1-H
3.	antennae and in which oth is being kept very secret cal station. The radar is Technical University, who completed their studies of and a specialist in small USSR and is said to have Soviet engineers which is is also in charge of similar to the state of	ner equipment is being in t, and word has been spre is being installed by Pro o is being assisted by si of small electrical currents. I studied radar there.	the same staff of ication of the Hel peninsula adar stations which are being and station of the Gdansk in Gdansk. Wysocki is an engineer to spent a long time ir 50×1-H
3.	antennae and in which oth is being kept very secret cal station. The radar is Technical University, who completed their studies of and a specialist in small USSR and is said to have Soviet engineers which is is also in charge of similar built on the Frische Nehr	ner equipment is being in t, and word has been spre is being installed by Pro- o is being assisted by si of small electrical currents. I studied radar there.	the same staff of ication of the Hel peninsula adar stations which are being and station of the Gdansk in Gdansk. Wysocki is an engineer to spent a long time ir 50×1-H
3.	antennae and in which oth is being kept very secret cal station. The radar is Technical University, who completed their studies of and a specialist in small USSR and is said to have Soviet engineers which is is also in charge of similarity on the Frische Nehr No CHANGE in Class.	ner equipment is being in t, and word has been spre is being installed by Pro- o is being assisted by si of small electrical currents. I studied radar there.	the same staff of ication of the Hel peninsula adar stations which are being and station of the Gdansk in Gdansk. Wysocki is an engineer to spent a long time ir 50×1-H
3.	antennae and in which oth is being kept very secret cal station. The radar is Technical University, who completed their studies of and a specialist in small USSR and is said to have Soviet engineers which is is also in charge of similar to the Frische Nehr built on the Frische Nehr NO CHANGE in Class. Changed TO: To	ner equipment is being in t, and word has been spreis being installed by Property is being assisted by single of small electrical currents. I studied radar there. Is supervising the fortification and regular fortification and regular in the Fillau distribution in the Fillau distribution.	the same staff of ication of the Hel peninsula adar stations which are being and station of the Gdansk in Gdansk. Wysocki is an engineer to spent a long time ir 50×1-H
3.	antennae and in which oth is being kept very secret cal station. The radar is Technical University, who completed their studies of and a specialist in small USSR and is said to have Soviet engineers which is is also in charge of similar to the Frische Nehr Document No. NO CHANGE in Class. DECLASSIFIED Class. CHANGED TO: The DDA Memo, 4 Apr	ner equipment is being in t, and word has been spreis being installed by Property is being assisted by single of small electrical currents. It electrical currents at studied radar there. It is supervising the fortification and record in the Fillau distribution in the Fillau distribution.	the same staff of ication of the Hel peninsula adar stations which are being and station of the Gdansk in Gdansk. Wysocki is an engineer to spent a long time ir 50×1-H
3.	antennae and in which oth is being kept very secret cal station. The radar is Technical University, who completed their studies of and a specialist in small USSR and is said to have Soviet engineers which is is also in charge of similar to the Frische Nehr built on the Frische Nehr NO CHANGE in Class. Changed TO: To	ner equipment is being in t, and word has been spreis being installed by Property is being assisted by single of small electrical currents. It electrical currents at studied radar there. It is supervising the fortification and record in the Fillau distribution in the Fillau distribution.	the same staff of ication of the Hel peninsula adar stations which are being and station of the Gdansk in Gdansk. Wysocki is an engineer to spent a long time ir 50×1-H
3.	antennae and in which oth is being kept very secret cal station. The radar is Technical University, who completed their studies of and a specialist in small USSR and is said to have Soviet engineers which is is also in charge of similar built on the Frische Nehr Document No. Document No. Document No. Declassified Class. CHANGED TO: To DDA Memo, 4 Apr Apr DDA REG. 77/1763	ner equipment is being in t, and word has been spreis being installed by Property is being assisted by single of small electrical currents. It electrical currents at studied radar there. It is supervising the fortification and record in the Fillau distribution in the Fillau distribution.	the same staff of ication of the Hel peninsula adar stations which are being and station of the Gdansk in Gdansk. Wysocki is an engineer to spent a long time ir 50×1-H
3.	antennae and in which oth is being kept very secret cal station. The radar is Technical University, who completed their studies of and a specialist in small USSR and is said to have Soviet engineers which is is also in charge of similar built on the Frische Nehr Document No. Document No. Document No. Declassified Class. CHANGED TO: To DDA Memo, 4 Apr Apr DDA REG. 77/1763	ner equipment is being in t, and word has been spreis being installed by Property is being assisted by single of small electrical currents. It electrical currents at studied radar there. It is supervising the fortification and record in the Fillau distribution in the Fillau distribution.	the same staff of ication of the Hel peninsula adar stations which are being and station of the Gdansk in Gdansk. Wysocki is an engineer to spent a long time ir 50×1-H
3.	antennae and in which oth is being kept very secret cal station. The radar is Technical University, who completed their studies of and a specialist in small USSR and is said to have Soviet engineers which is is also in charge of similar built on the Frische Nehr Document No. Document No. Document No. Declassified Class. CHANGED TO: To DDA Memo, 4 Apr Apr DDA REG. 77/1763	ner equipment is being in t, and word has been spreis being installed by Property is being assisted by single of small electrical currents. It electrical currents at studied radar there. It is supervising the fortification and record in the Fillau distribution in the Fillau distribution.	the same staff of ication of the Hel peninsula adar stations which are being and station of the Gdansk in Gdansk. Wysocki is an engineer to spent a long time ir 50×1-H
3.	antennae and in which oth is being kept very secret cal station. The radar is Technical University, who completed their studies of and a specialist in small USSR and is said to have Soviet engineers which is is also in charge of similar built on the Frische Nehr Document No. Document No. Document No. Declassified Class. CHANGED TO: To DDA Memo, 4 Apr Apr DDA REG. 77/1763	ner equipment is being in t, and word has been spreis being installed by Property is being assisted by single of small electrical currents. It electrical currents at studied radar there. It is supervising the fortification and record in the Fillau distribution in the Fillau distribution.	the same staff of ication of the Hel peninsula adar stations which are being and station of the Gdansk in Gdansk. Wysocki is an engineer to spent a long time ir 50×1-H
3.	antennae and in which oth is being kept very secret cal station. The radar is Technical University, who completed their studies of and a specialist in small USSR and is said to have Soviet engineers which is is also in charge of similar built on the Frische Nehr Document No. Document No. Document No. Declassified Class. CHANGED TO: To DDA Memo, 4 Apr Apr DDA REG. 77/1763	ner equipment is being in t, and word has been spreads being installed by Property is being assisted by single small electrical currents. It electrical currents at studied radar there. Is supervising the forting that fortification and range in the Fillau distribution in the Fillau distribution.	the same staff of ication of the Hel peninsula adar stations which are being and station of the Gdansk in Gdansk. Wysocki is an engineer to spent a long time ir 50×1-H
STATE	antennae and in which oth is being kept very secret cal station. The radar if Technical University, who completed their studies of and a specialist in small USSR and is said to have Soviet engineers which is is also in charge of similar built on the Frische Nehr Document No. Document No.	ner equipment is being in t, and word has been spreads being installed by Property is being assisted by single small electrical currents. It electrical currents at studied radar there. Is supervising the forting that fortification and range in the Fillau distribution in the Fillau distribution.	the same staff of ication of the Hel peninsula adar stations which are being and station of the Gdansk in Gdansk.
